PROFESSIONAL SUMMARY

Senior DevOps and Cloud Engineer with 13+ years of experience designing, building, migrating, and operating enterprise-scale cloud platforms on AWS and Azure. Deep operational ownership of Kubernetes (AKS/EKS), CI/CD pipelines, Infrastructure as Code, and DevSecOps practices across regulated banking, insurance, and telecom environments. Recognised for leading platform migrations, driving audit readiness, and acting as senior escalation point for complex production issues. AWS SysOps Administrator certified.

CORE TECHNICAL SKILLS

Cloud Platforms: AWS (EC2, S3, IAM, VPC, RDS, Route53, ECS, CloudFront, Cognito, Lambda), Microsoft Azure, Azure DevOps, GCP, OpenStack

Containers & Orchestration: Kubernetes (EKS, AKS, ECS), Docker, Helm, Ingress Controllers, Gateway API

CI/CD: Jenkins, Azure DevOps, AWS CodePipeline/CodeBuild, GitHub Actions, Maven, ANT

Infrastructure as Code: Terraform, ARM Templates, CloudFormation, Ansible, Chef, Puppet

DevSecOps & Identity: SAST, Secrets Management, Container Security, AWS Managed AD, LDAP, Azure AD

Observability: Prometheus, Grafana, Dynatrace, ELK, Nagios, SonarQube

Scripting & Tools: Python, Core Java, Ruby, Shell/BASH, Git, SVN, Nexus, JIRA, ServiceNow, MySQL, SQL Server, Oracle, RHEL, Ubuntu

PROFESSIONAL EXPERIENCE

Senior Associate, DevOps & Cloud Engineer | FWD Technology and Innovation Sdn. Bhd.

Aug 2023 - Present • Malaysia

- Own and operate enterprise-grade Azure and AWS cloud platforms supporting critical insurance applications across SIT, UAT, and Production environments.
- Design, deploy, and manage AKS and EKS clusters, including upgrades, scaling, backup, restore, and networking components.
- Lead Kubernetes ingress modernisation initiatives, including controller migrations and Gateway API adoption at scale.
- Standardise and secure CI/CD pipelines using Azure DevOps and Jenkins, improving deployment reliability and traceability.
- Implement Infrastructure as Code using Terraform, ARM, and CloudFormation to ensure repeatable, auditable deployments.
- Drive DevSecOps improvements by remediating SAST findings, secret management issues, and container security risks.
- Act as senior escalation point for complex production incidents; serve as CCoE representative on the Regional Change Advisory Board.

Senior DevOps Engineer | AspireNXT Pvt Ltd

Jan 2022 - Aug 2023 • Bangalore, India

- Administered CodeCommit repositories and Azure DevOps branching/merging strategy, including user account administration.
- Deployed serverless workloads using AWS Lambda, Lambda@Edge, and CloudFront for zero-delay global content delivery.
- Implemented AWS Managed Microsoft AD with EC2-based administration, DNS configuration, and LDAP authentication.
- Managed Outsystems application deployments and RedHat OpenStack Platform environments.

DevOps Engineer | Everywhere Facility Management

Jun 2020 - Dec 2021 • India

- Managed software configuration management and build environments using Chef, including cookbook and recipe development.

- Designed end-to-end CI/CD pipelines using Jenkins integrated with Git for automated build and release.
- Deployed and managed Kubernetes clusters on Azure (AKS) with auto-scaling, load balancing, and container networking.
- Implemented Infrastructure as Code using ARM templates and Terraform.

DevOps Engineer | MDX Extra Pvt Ltd

Jan 2019 - Mar 2020 • India

- Administered AWS CodeCommit repositories and build/release pipelines via AWS CodeBuild.
- Automated build and release processes end-to-end using Python scripting.
- Implemented AWS Managed Microsoft AD with DNS forward/backward lookup and LDAP authentication.
- Built and maintained Ansible playbooks and roles for consistent, automated server configuration.

DevOps Engineer | Wipro Pvt Ltd (Client: AT&T, USA — Project SDN-F)

Aug 2017 - Dec 2018 • India

- Managed software configuration management and build environments using Chef for a US telecom client.
- Designed end-to-end CI/CD pipelines using Jenkins integrated with Git and Maven.
- Wrote Chef cookbooks and recipes in Ruby; managed chef-server configuration and cluster health checks.

DevOps and Build & Release Engineer | Bank of America Pvt Ltd (Client: Bank of America, USA — Project GEMS)

Aug 2015 - Jul 2017 • India

- Managed software configuration management and build environments using Ansible for a global banking client.
- Developed Ansible playbooks and roles to automate routine system administration tasks.
- Administered Maven repositories and Jenkins jobs, labels, and build nodes across environments.

Build & Release Engineer | Value Labs Pvt Ltd (Client: Qwest SEQUEST, USA)

Apr 2013 - Jul 2015 • India

- Provided Subversion (SVN) administration, including branching, tagging, and utility scripting to reduce manual effort.
- Deployed and managed server configuration using Puppet.
- Executed weekly scheduled builds and deployments across environments as build engineer.

EDUCATION

Master of Computer Applications (MCA) — B.S. Abdur Rahman University, India • 2013

Bachelor of Computer Applications (BCA) — Syed Hameeda Arts and Science College, India • 2010

CERTIFICATIONS

- AWS SysOps Administrator — Amazon Web Services
